- JS Algorithms & Data Structures
freeCodeCamp — 2024
- Responsive Web Design
freeCodeCamp — 2022

Laszlo Nemeth

Frontend Developer

Currently seeking Junior Frontend Developer roles · Budapest, Hungary

ABOUT ME

Frontend developer focused on building **Angular-based web applications**. Experienced in **responsive layouts**, **reactive forms**, and **interactive UI features** such as filtering and sorting. In Angular projects I use **Signals**, **Standalone Components**, **Reactive Forms** and **RxJS**. Familiar with **feature-based architecture** and **NgRx state management** basics. Also have foundational **backend skills with NestJS**.

EXPERIENCE

Frontend Developer

2026

Insurance Website UI Development

- Modifying and improving the existing website interface
- Implementing design elements and styles with CSS
- Improving responsive design across different devices

Collectsign Platform

- Building custom Angular components (implementing FormControlValueAccessor)
- Adding new features and UI elements using TypeScript
- Applying component-based architecture and Git version control

Frontend Developer – Personal Projects

2024 – 2026

Survey Builder (Angular)

- Fully dynamic survey system — form structure, steps and validation driven entirely by JSON config
- Conditional question logic and Reactive Forms

Recipe App (Full Stack)

- Frontend:** Angular with feature-based architecture, signal-based stores, admin panel
- Backend:** Custom REST API built with NestJS + Prisma

Kanban Task Management (Angular · Frontend Mentor)

- Drag-and-drop task board with multiple boards, dark/light mode, local storage

Additional Frontend Mentor Challenges

- Product Feedback App — filtering, sorting, nested comments (Angular)
- Frontend Quiz App — refactored from Vue.js to Angular + GSAP animations
- Hangman Game, Password Generator, REST Countries API (Angular)
